86 Tips, thoughts and quotes of wisdom on collecting Chinese Contemporary Art

£14

The idea of this pocket book is based on a simple question: 'What are your tips, thoughts, or words of wisdom on collecting Chinese contemporary art?'

While some writers contribute from their institutional background, others approach the topic from a market perspective, while others still from a connoisseur's and collector's point of view.

But the underlying element of all contributors is obviously their strong engagement, connection, and passion for Chinese contemporary art — and most often for collecting it.

This publication can serve as a guidebook and navigator. It is a storyteller, a source of wisdom, and a documentation of the experiences and expertise of people who are shaping, making, and working in the scene.
