### Wim Delvoye Gothic Works

£24.95

Belgian artist Wim Delvoye's exhibition features mainly new work on a Gothic theme. A series of stained glass windows named after the Nine Muses of Greek mythology will be dramatically displayed in the Gallery's new exhibitions space, along with two giant earth movers resembling miniature gothic cathedrals. Wim Delvoye's art is extremely eclectic and can be grouped into different themes, of which the Gothic is just one strand. Whilst he has deeply serious intentions, Delvoye also applies a sense of humour, at times risqué, at others disturbing to create unique and challenging work. Published alongside Wim Delvoye's first UK solo exhibition at Manchester Art Gallery, 17 September 2002 – 17 November 2002.
