

Lutz & Guggisberg Impressions from the Interior

£15

This artist's book has been published on the occasion of the first UK exhibition by Swiss artists Andres Lutz and Anders Guggisberg at Ikon Gallery, 28 May – 20 July 2008. Consisting of video, painting, installation and sculptural pieces, made since these two artists began their partnership in 1996, the exhibition is a judicious survey including spectacular new work.

The notion that everything is connected to everything else is explored in the work from which this exhibition takes its name, Impressions from the Interior (2008) a photographic essay.

Consisting of 30 prints, the images, created using photographic processes more akin to lithography, are exquisite in their detail and clarity. An extraordinary series, the photographs were taken over a considerable period of time in an idiosyncratic exploration of both interior and exterior space.
