

## Color Library

### Research into Color Reproduction and Printing

£30.00

A collectible publication for graphic designers and creative entrepreneurs, this book is dedicated to *Color Library*, one of the most commented projects in the graphic design field in the past years.

*Color Library* is a database of colour profiles for artists, designers, photographers, and printers who are looking for a novel yet professional colour management solution. It offers a wide variety of colour combinations, from basic colours through metallic, neon, and pastel. Created at ECAL/University of Art and Design Lausanne, *Color Library* was launched in 2014.

Initially developed for experimental purposes, the project was extended in order to create an online platform for development and distribution. This nonprofit website has a dual objective: to distribute an innovative tool for artists, designers, and printers, and to make students aware of colour theory and colour management – one of the main fields of contemporary design research.

Among the graphic designers and creative structures that have used and/or are using *Color Library* are A ba ke, Vitra, Baldinger Vu-Huu, Edition Patrick Frey, Zak Kyes, Istituto Svizzero, Kunsthalle Basel, and Nero Publishing.

This publication documents the different chromatic and technical possibilities offered by *Color Library* and includes a commissioned visual essay by Zurich-based photographer, Shirana Shahbazi as well as essays by London-based writer, curator, and graphic design expert Emily King, Manon Bruet, and Franz Sigg.

Published with ECAL, Lausanne.
