

## Mustafa Hulusi

The Joyous, Shining And Wonderful Age £38

This book is a succinct summary of the artist's work over the last five years. Although he describes himself as primarily a conceptual artist, the book merges Hulusi's work in various media—photography, filmmaking, painting – into a cohesive, easily understandable whole.

Hulusi's messianic artistic vision is poetic yet critically observant as it lays out a new way of understanding the philosophical implications of our post-political age.

This book includes a DVD containing his new film work entitled *The EMPTY Near East*, a meditative five minute loop narrative of a post-apocalyptic landscape.
