

Design Finland Playing Cards

£10.00

The theme of *Design Finland Playing Cards* is Finnish design from the 1900s and early 2000s.

The suits are divided as follows: **Spades**: ceramics and glassware, **Hearts**: furniture and lamps, **Diamonds**: textiles, clothes and jewellery, **Clubs**: equipment and tools.

The **Kings, Queens and Jacks** are **designers** and who are literally clothed in their own creations. The numbered cards depict design objects and the two jokers are persons who have had a significant influence in Finnish design.

What, then, is design? Distinct art objects, practical furniture, everyday tools, imaginative fashion and much more. Put your cards on the table, and get a glimpse into the fascinating world of design.
