

Richard Woods Country Life

£65.00

'Country Life' is a brand new collection of work by British Artist, Richard Woods. The corresponding exhibition opened at Albion Barn in Spring 2014.

This limited edition artist's book is individually hand-crafted by the artist. Only 200 copies have been produced. Each is hand-painted and every book is different. Each copy contains many of Woods' preparatory collages and drawings as well as photographs of finished works.

In a unique collaboration, Michael Hue-Williams invited Woods to respond to the environment in which his work could be exhibited – creating something that would have legacy in its surroundings and a direct response to the Great British countryside setting of Albion Barn.

Published with Albion Barn.

Firm sale only.
