

Klaus vom Bruch Memories of a Paper Streamer 1952- 2052

£40.00

Klaus vom Bruch is regarded as a pioneer of video art in Germany. In this first comprehensive monograph, individual stations from his life and work are presented. The work does not follow a chronological sequence, but rather a montage of different material and content, which takes the reader along an ironic journey through the curved space of the arts.

Text in English and German
