

### Frida Escobedo Serpentine Pavilion 2018

£29.00

Inspired by the geometries and materials of the Serpentine Pavilion design by Mexican architect Frida Escobedo, this beautiful catalogue is the first publication to focus on her practice.

It brings together writing and images that have acted as inspiration and reference points for Escobedo, with newly-commissioned texts that review her work to date and discuss the themes that informed her design for this year's structure.

'I am curious about how we define time and how architecture reflects it... this process of creation and accumulation that happens slowly but steadily, so it becomes a continuous flow of happenings, one after the other.' — Frida Escobedo
