

Hans-Peter Feldmann (German Edition)

ABC für Kinder mit der Kunst

£55

Alongside his exhibitions in museums, galleries and art institutions, Hans-Peter Feldmann is well known for the books he regularly creates. His books examine art, but can also be read as picture books for adults.

Now, for the first time, Feldmann has produced a book specifically for children. It is, as ever, a picture book with a great deal of art.

It includes approximately 800 paintings taken from many periods in art history. But the quality of the paintings isn't the only thing that distinguishes this book.

Feldmann uses the pictures to teach children about the alphabet, numbers and colour. It is an ABC book for children, which might well entertain adults too.
